

MEDIA SERVICES PLAN

2021 – 2022

Mission

Our mission is to positively impact the residence of the Dallas Forth Worth community through educational and economic empowerment in the beauty industry. Dallas Lash Academy strives to prepare the next generation of students by providing an exceptional educational experience during their training to become a Beauty Professional.

Hours of Operation

The campus has classes in session Tuesday through Saturday. Evening classes are offered to serve the needs of post-secondary and adult general education students.

Vision

Through effective and proactive leaderships, we will unlock the potential of all learners.

Hours of Operation

Media Services Plan

Dallas Lash Academy has a written plan for its media services which encompasses the requirements of COE. Because our media center is virtual in nature, the scope and availability are vastly unlimited. Every student has access via their student portal. Moreover, students and teachers at the institution have access to the virtual library which is a shared library system. There is a physical area where student can utilize or they can access NewsBank from their mobile device.

Scope and Availability

Because our media services are virtual in nature, the scope and availability is vastly unlimited. Every classroom has access to the internet to support the effort to bring information to students wherever they might be. To this end, students and instructors can access non-print instructional media at any time.

Roles and Responsibilities

The role and responsibilities of the registrar is to ensure each student is made aware of the media services.

Plan Evaluation

At the opening of schools meeting or during the institutional advisory meeting, all staff members are given the opportunity to review/rate the plan. Comments, recommendations, and information are heard and are used to revise the plan and adjust if necessary, to ensure continuous improvement of the school.
